April 18, 2018

Dear Patients,

I am writing to inform you that I will be closing my private practice on June 15, 2018. I am so grateful for years of working with wonderful patients in a field that I love. It is my relationship with each of you that makes this decision so very difficult. Thank you for allowing me to be part of your lives and for trusting me to be your doctor.

I will be able to assist you with refills and appointments until June 15th. At that point you will need to have another neurologist to follow your care.

Texas Neurology Consultants, LLP, has three other board-certified neurologists who may be able to help you, or you can choose a neurologist from your health plan, or speak with your primary care physician for a referral. You will need to establish care with another neurologist as soon as possible.

Texas Neurology Consultants, LLP, will be the custodian of my medical records, so if you see any of the doctors at this location they will have access to your medical records. You may have your new doctor request a copy of your records with a signed authorization, as they are confidential.

I wish you all happiness and good health.

All the best,

Daniel Hopson, M.D., P.A.
